Fallout Shelter Specialists

In Brief

Apex Engineering Co., founded in 1985 by Leonard Goldblatt, P.E., P.P. (Professional Engineer, and Planner), is a dynamic group of engineers and professionals whose backgrounds span a wide spectrum of disciplines. This diversity enhances Apex's ability to successfully meet the technical challenges of each assignment.

Apex Services include inspections, reconstruction, testing, and the development of technical reports. Apex provides assistance in the preparation of questions for depositions as well as question and answers for interrogations. Associates at Apex also serve as expert witnesses at depositions, hearings, arbitration's and trials.

Apex can also provide a wide range of services that are oriented towards achieving the goal of settling a case.

Facts

- Repeat clients are the source of over 85% of Apex's current assignments.
- Over 95% of Apex's litigation assignments are brought to a favorable conclusion prior to trial.
- Apex has been written up twice in The New Jersey Jury Verdict Review & Analysis Journal.
- Apex's assignments for defendants and plaintiffs number over 1,200.
- Apex is a consulting engineering firm, not a referral service.
